*"I regret taking
such good care
of my skin"*

- said no one ever

Noosa chunks can be seen as souvenirs of yourself; elements that create the feeling of being memories of extensive travels and unique cultures and the people you have met.

Fair Trade is essential to the production of Noosa Chunks. Noosa Amsterdam strives to trade in a fair and sustainable way by offering the artist a stable income & suitable workspace close to their homes. Noosa Amsterdam has created over 500 jobs in chunk manufacturing worldwide.

The current line of chunks is made out of natural materials like stone, wood, shells, bone and ceramic. Each chunk has its own origin, tell a unique story with the chunks on your leather belt, bag or bracelet.

How it works – you start with a base, a beautiful leather belt, bracelet or bag, customise them with the original chunks to create a personal look. The chunks are easily attachable and removable, enabling you to create innumerable variations.
